

The problems for the 2nd set of HWK are

§ 5.3: 7, 8, 9, 11 (only for problems 7, 8, and 9)

§ 7.1: 13, 17, 19

please grade #7 and #11 (for problem #9), for 2.5 pts each.

The rest (#8, 9, 11(7), 11(8), 13, 17, 19) can have  $\frac{1}{2}$  point without grading.

total = 10.

Thank you.

$$\#7) \text{ GCD}(2091, 4807) = 1$$

$$4807 = 2(2091) + 625$$

$$2091 = 3(625) + 216$$

$$625 = 2(216) + 193$$

$$216 = 1(193) + 23$$

$$193 = 8(23) + 9$$

$$23 = 2(9) + 5$$

$$9 = 1(5) + 4$$

$$5 = 1(4) + \textcircled{1}$$

$$4 = 4(1) + 0$$

$$\begin{aligned} \#11(9) \text{ GCD}(67942, 4209) &= 23 = 4209 - 7(598) \\ &= 4209 - 7[67942 - 16(4209)] \\ &= 4209 - 7(67942) + 112(4209) \\ &= 113(4209) - 7(67942) \end{aligned}$$

$$s = -7, t = 113$$
